

Haslington Lodge Care Home

Set within the leafy Kent suburbs, Haslington Lodge is an impressive 46-bed residential care home, providing 24-hour care and assistance, including those diagnosed with dementia.

Our care environment

Our care team at Haslington Lodge specialises in 24-hour care and includes a dementia facility where consideration is given to the differing personal needs and requirements of residents' care needs.

There are three units where residents with varying levels of dependency can live alongside other like-minded individuals. The smaller units create a much more familiar and homely environment where everyone can live harmoniously and as independently as possible, as part of one big family.

With a particular focus on dignified independence, each unit has a kitchen area where residents can meet and interact with their guests and family members, allowing the freedom to make a cup of tea or a small snack, in the safety and comfort of a dementia friendly environment.
